First Alert® CX4 Cameras Built for Flexibility. Designed for Integration.

The CX4 Camera Series brings you the next generation of smart security, designed to adapt to the needs of your customers. Whether it's securing a home or a small business, CX4 cameras offer features that make surveillance simple yet effective. With three options to choose from, offer customized solutions that match the style, space and needs of your customers.

Smart, Sharp, Insightful

Experience unmatched clarity and intelligent detection with our advanced video cameras. Designed to deliver real-time insights, they help you stay in control—anytime, anywhere.

8MP Sensor

The 8MP Sensor captures crystal clear live and recorded video with critical details like license plates and faces.

Intelligent Event Detection

Advanced analytics to distinguish people, animals, vehicles and packages in real time; reducing false alerts and enabling proactive event detection so your customers can focus on what truly matters.

Secure Storage

CX4 cameras support up to 1TB on-device storage* with 24/7 recording, plus secure, event-based cloud storage giving your customers flexible, reliable storage.

*MicroSDXC card not included

Custom Flexible Solutions

Choose from three camera options for the right fit; whether its long-range coverage, discreet placement or flexible positioning building scalable surveillance tailored to any space or need.

Upsell Opportunities

CX4 cameras seamlessly integrate with ProSeries and VISTA® panels, unifying video and intrusion in one app for a fully integrated install.

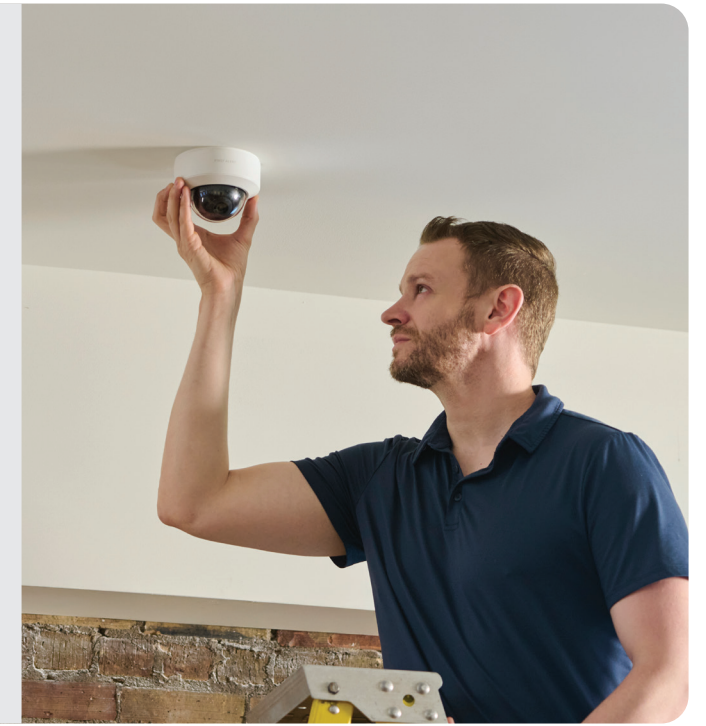

Simplified Setup

CX4 Cameras can be setup, deployed and maintained remotely using the AlarmNet 360 and Total Connect 2.0 apps.

CX4D Dome Camera

The CX4 Dome Camera is designed for both indoor or outdoor use and the sleek, unobtrusive design allows it to blend effortlessly into any environment – perfect for office lobbies and retail spaces. The dome shape not only minimizes visual impact but also adds a layer of protection against tampering. With a wide 125° field of view, it delivers expansive coverage without drawing attention. Offer the optional flush mount, for a stylish, discreet security solution that blends seamlessly into any space.

CX4B Bullet Camera

CX4 Bullet Camera is best for customers who are seeking long-distance coverage and high visibility on their property. The bullet design allows for flexible installation, making it ideal for monitoring large areas like driveways, parking lots and building perimeters. Its elongated and protruding shape makes it more noticeable and acts as a visible deterrent to discourage potential intruders. Additionally, the optional junction box ensures cleaner installs and guards the wires for reliability.

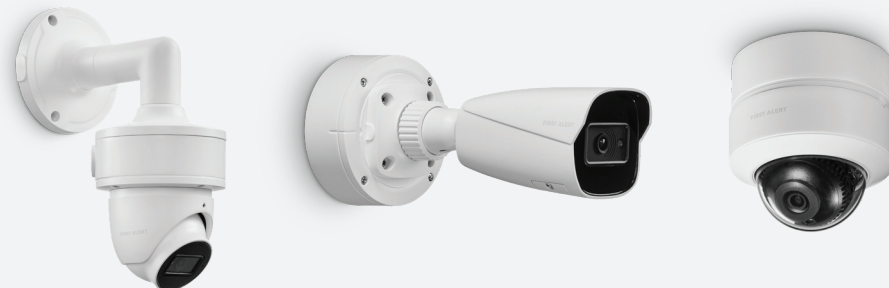

CX4T Turret Camera

The CX4 Turret Camera is built for flexibility and precision, featuring a ball-and-socket design that allows for easy post-installation adjustment. Ideal for both indoor and outdoor use, it strikes the perfect balance between visibility and discretion. Its design minimizes glare and reflections—making it especially effective in well-lit areas like cash registers, reception desks, and stairways. Equipped with a built-in 1CH microphone to capture audio alongside the high-quality video. With the optional wall mounts simplify even the complex installation spaces.

Simplify Your Installs

Support every install with compatible wall and ceiling mounts, junction boxes, and accessories.

Install, Monitor, Manage

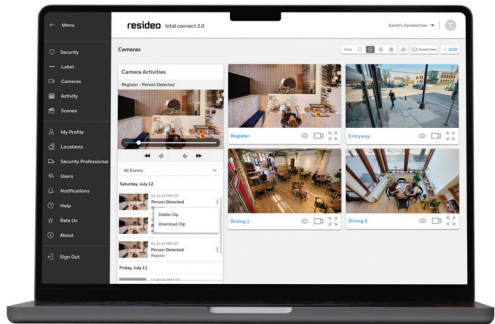

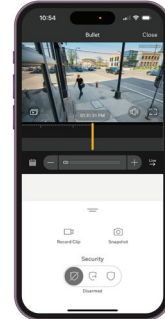

From seamless installs to remote monitoring and account management, AlarmNet 360™ and Total Connect® 2.0 apps put control at your fingertips.

Total Connect® 2.0

Stay connected with HD video viewing and advanced event detection

Total Connect® 2.0 brings video and security together in one unified experience. Customers can remotely manage their property, view event-based video clips, scrub timelines, filter events by category and get on-demand video clips. They can stream up to 12 CX4 cameras on the web or view individual streams on mobile. Smart security, anytime, anywhere.

AlarmNet 360™

Manage customer accounts anytime from anywhere

The AlarmNet 360™ app and web experience gives you access to account support for the CX4 Camera Series. Remotely configure settings, troubleshoot issues, ensure seamless operations and more via a web browser, iOS or Android™ device.

Subscription-Based Storage Plans

Choose from scalable options — from single devices to full security systems — designed to fit multiple applications while creating a recurring revenue stream for your business. Each plan includes advanced features like intelligent event detection, continuous recording, motion alerts, rich notifications, and on-demand clips for complete coverage. A storage plan is required for CX4 Video Cameras.

| Plan | Order Item No. | Description |
|--|----------------|--|
| VX and CX Series One-Device 30-day Video Storage Plan | AN5218 | Enables intelligent event detection and notifications Supports (1) VX Series or (1) CX Series device 1,500 clips |
| VX and CX Series 4 Device 7-day Video Storage Plan | AN5206 | Enables intelligent event detection and notifications Supports (4) VX Series or CX Series, (8) Total Connect cameras 350 clips per camera |
| VX and CX Series 4 Device 30-day Video Storage Plan | AN5207 | Enables intelligent event detection and notifications Supports (4) VX Series or CX Series, (8) Total Connect cameras 1,500 clips per camera |
| VX and CX Series 12 Device 30-day Video Storage Plan | AN5222 | Enables intelligent event detection and notifications Supports (12) VX Series or CX4 Series, (8) Total Connect cameras 1,500 clips per camera |
